in the Opolskie Voivodeship

Ladies and gentlemen,

If you keep this informer in your hands, it means that you are interested in investing in the Opolskie Voivodeship. It's a very good choice! Why?

Not only because we have well prepared investment areas in many locations, well educated and prepared to work in various occupations people, a dense network of modernised or constantly renovated roads or a highway perfectly communicating west and east. Also because we know how to make an advantage of the fact that we are the smallest region in Poland.

Thanks to this, it is easier for us to make joint arrangements and activities to best support our entrepreneurs. We also know better the companies operating in our region, their specificity and thanks to that we more accurately select everything that is hidden under the concept of post-investment service. And this is perhaps the most important thing: our support for companies never ends with your decision to invest in the Opolskie Voivodeship.

Our philosophy of business-friendly region is implemented at every stage of your business activity.

Therefore: we invite you to Opolskie!

Food sector in the Opolskie Voivodeship

The food production industry has rich traditions in the opolskie region. We find here many producers of dairy, meat and sausages, vegetables and fruit, bakery products and sweets. Ecologically clean areas are favorable for growing edible plants and animal breeding.

The capital structure of the industry is diverse. There are international companies operating in the opolskie region including the world's largest corporations such as Danone, Froneri or Mondeľēz, as well as companies with only domestic capital (family-owned butchers, bakeries, and manufacturers of sweets, etc.). A significant number of companies focus on the production of export goods, taking advantage of the proximity of Western European markets.

Among the active companies in the region, we find both those that develop production under their own brand, as well as those that provide products under the own brand of retail chains (private labels).

Companies operating in the food industry can count on the support of Opolskie business environment institutions. These include: Opole Chamber of Commerce, Opole Business Center Club, Chamber of Crafts in Opole, Chamber of Commerce "Silesia", Science and Technology Park in Opole, Silesian Development Foundation, Kędzierzyn-Koźle Industrial Park, Regional Chamber of Commerce in Nysa, Association for Industrial Park Metalchem, Association for "Promotion of Entrepreneurship".

The food sector in the opolskie region can count on a very developed road and rail infrastructure, wide availability of qualified staff and raw materials, as well as a convenient geographical location in the middle of Europe, which simplifies the logistics chain and reduces the cost of transporting goods to customers.

Examples of companies representing food industry:
