

Opolskie Voivodeship

Furniture industry

Unit of Self-Government
of the Opolskie Voivodeship

Dear Sir or Madam,

if you are holding this brochure in your hands, this means that you show an interest in investing within the Opolskie Voivodeship. This is a very good choice! Why?

This is not only due to the fact that we have well-prepared investment sites in many locations, well-educated people who are prepared for working in various professions and trades, an extensive network of roads, which have been either already upgraded or are still in the process of refurbishment, and the motorway going from the west to the east.

Another reason is that we are able to take the advantage of the fact that we are the smallest region of Poland.

This facilitates our decision-making process related to joint arrangements and actions so as to support business organisations to the best possible extent. We also better know companies operating in our region, which enables us to be more precise and accurate when selecting all these things which are considered post-investment service.

And perhaps this is of the utmost importance: our support for companies never ends with your decision to invest in the Opolskie Voivodeship. You can rely on our assistance also later on, at every stage of your activities.

Wałbrzych Special
Economic Zone

Katowice Special
Economic Zone

Quantitative criteria

Quantitative criteria

Investment project costs (capital expenditures or two-year labour costs) conditional on:

- An unemployment rate in the district where the site of a new investment project is located (compared to the average unemployment rate in the country);
- The size of an enterprise.

For investments in modern business services and SMEs, the conditions for eligible costs are reduced by:

- 98% (micro-enterprises);
- 95% (small enterprises);
- 80% (medium enterprises);
- 95% (modern services).

Unemployment rate in a given district

	High (industrial project)	High (modern services)	Medium	Medium	Micro
< 60%	> 100	> 5	> 20	> 5	> 2
(60%; 100%)	> 80	> 4	> 16	> 4	> 1.6
(100%; 130%)	> 60	> 3	> 12	> 3	> 1.2
(130%; 160%)	> 40	> 2	> 8	> 2	> 0.8
(160%; 200%)	> 20	> 1	> 4	> 1	> 0.4
(200%; 250%)	> 15	> 0.75	> 3	> 0.75	> 0.3
> 250%	> 10	> 0.5	> 2	> 0.5	> 0.2

Qualitative criteria

In order for a support decision to be issued in the Opolskie Voivodeship a minimum of 5 points must be scored. The maximum number of points = 10.

Industrial project* / Investment project in the sector of modern business services

Sustainable economic development (5 points)

- Investing in projects that support industries consistent with the country's current development policy, namely the industries in which Poland can gain a competitive advantage;
- Achieving an adequate level of sales outside Poland;
- Being a member of the Key National Cluster*;
- Running R&D activities;
- Setting up a modern business services centre whose operations extend beyond the territory of Poland;**
- Having the micro-enterprise or SME status.

Sustainable social development (5 points)

- Creating high-paying jobs and offering stable employment;
- Conducting an economic activity that has a low negative impact on the environment;
- Locating an investment project in a city that is losing its social and economic functions or an adjacent commune, or in a district where the unemployment rate is at least 160% of the average unemployment rate in the country (excluding cities which are the seat of a province governor or province assembly);
- Supporting the acquisition of education and professional qualifications and co-operation with sectoral vocational schools;
- Taking actions designed to provide the employee with care.

Furniture sector in Opolskie Voivodeship

The furniture industry is an important pillar of Polish exports. In 2017, Polish furniture manufacturers exported goods worth about EUR 11.4 billion, reaching a market share of 9.5% in the furniture market in the European Union. This result allowed Polish companies from the furniture industry to take the 3rd position in terms of the value of furniture produced in the EU. One of the key centers of the domestic furniture industry is the Opolskie Region. The traditions of furniture production in the region are over 200 years old and you can easily find family companies that have been engaged in the production of furniture for several generations.

The small town of Dobrodzień located 45 km from Opole is recognized as the furniture center of the region and is known not only in Poland but also in Europe. Companies such as Kler, Lissy, Mebel Rust, and DES are located here. Dobrodzień is also home to Dobroteka – a showroom, where under one roof brands of local producers are found and research and development activities on interior design are conducted. Dobroteka is a successful example of the cooperation of local furniture producers, contributing to the growth of the potential and recognition of this sector, which is crucial for the Opolskie Region.

The furniture industry has a wide range of research, development, and education facilities. Universities from Opole, Gliwice, and Wrocław provide the industry with a constant supply of qualified engineers, technologists, and designers.

Companies operating in the furniture industry can rely on the help of Opole institutions supporting the business environment. These include the Opole Chamber of Commerce, the Business Centre Club Opole, the Chamber of Crafts in Opole, the "Silesia" Chamber of Commerce, the Science and Technology Park in Opole, the Silesian Development Foundation, Kędzierzyn-Koźle Industrial Park, the Regional Chamber of Commerce in Nysa, the Industrial Park Association Metalchem, and the "Promotion of Entrepreneurship" Association.

The furniture sector in the Opolskie Region can rely on a well-developed railway and road infrastructure, a multitude of local research and education facilities, as well as a convenient geographical location in the middle of Europe, which simplifies the logistics chain and reduces the cost of transporting goods to customers.

Examples of companies from the furniture industry

Opole: Sigma, Kocot Kids

Opole District: Halupczok, Kuchnie i Wnętrza, Roskosz, Stora Enso, Vitra

Kluczbork District: Flaxpol, Fabryka Mebli Piaski

Namysłów District: Plywood Pol

Olesno District: Badura meble, Bomar meble, Dobroteka, Des, Kler, Lissy, Meble Bryłka, Meble Pyka, Meblonowak

Nysa District: Schattdecor, Fabryka Pomocy Naukowych, HLT, Malta Decor, Tetris

Krapkowice District: Meblosoft

Carpentry

A.P.B. Stolarstwo S.C.

A typical family business, where the traditions of good and solid work have been passed down from generation to generation for 60 years. The origins of the company date back to 1949. The company was founded by Józef Stotko, who ran the company for 35 years. Continuous expansion and modernization allowed the production of furniture according to the individual needs of the client. When designing furniture, the company uses computer visualization and includes all the suggestions of customers.

schattdecor

Schattdecor Sp. z o.o.

The Schattdecor Group, based in Upper Bavaria, was founded in Thansau in 1985. It has production facilities in Germany, Poland (2), Italy, Russia (3), Switzerland, China (4), Brazil (2), Turkey, the USA (2), and Malaysia. Schattdecor is a world leader in printed decorative papers and finish foils. The company's products are used for surface refinement of wood-based panels used in the furniture industry, in the production of floor and wall panels, doors, edging, and other elements of interior furnishings. The company has been present in the Polish market since 1993.

Products

Printed decorative paper, pre-impregnated foils (Smartfoil), printed with wood- and stone-like and fancy patterns.

Customers

Manufacturers of wood-based panels, furniture manufacturers, floor panels, and doors.

Certificates

DIN EN ISO 4892-2, ISO 2813.
