

Opolskie Voivodeship

Food industry

Unit of Self-Government
of the Opolskie Voivodeship

Dear Sir or Madam,

if you are holding this brochure in your hands, this means that you show an interest in investing within the Opolskie Voivodeship. This is a very good choice! Why?

This is not only due to the fact that we have well-prepared investment sites in many locations, well-educated people who are prepared for working in various professions and trades, an extensive network of roads, which have been either already upgraded or are still in the process of refurbishment, and the motorway going from the west to the east.

Another reason is that we are able to take the advantage of the fact that we are the smallest region of Poland.

This facilitates our decision-making process related to joint arrangements and actions so as to support business organisations to the best possible extent. We also better know companies operating in our region, which enables us to be more precise and accurate when selecting all these things which are considered post-investment service.

And perhaps this is of the utmost importance: our support for companies never ends with your decision to invest in the Opolskie Voivodeship. You can rely on our assistance also later on, at every stage of your activities.

Andrzej Buła
Marshal of Opolskie Voivodeship

Quantitative criteria

Quantitative criteria	Unemployment rate in a given district	Eligible costs (mPLN)				
		High (industrial project)	High (modern services)	Medium	Medium	Micro
Investment project costs (capital expenditures or two-year labour costs) conditional on: • An unemployment rate in the district where the site of a new investment project is located (compared to the average unemployment rate in the country); • The size of an enterprise. For investments in modern business services and SMEs, the conditions for eligible costs are reduced by: • 98% (micro-enterprises); • 95% (small enterprises); • 80% (medium enterprises); • 95% (modern services).	< 60%	> 100	> 5	> 20	> 5	> 2
	(60%; 100%)	> 80	> 4	> 16	> 4	> 1.6
	(100%; 130%)	> 60	> 3	> 12	> 3	> 1.2
	(130%; 160%)	> 40	> 2	> 8	> 2	> 0.8
	(160%; 200%)	> 20	> 1	> 4	> 1	> 0.4
	(200%; 250%)	> 15	> 0.75	> 3	> 0.75	> 0.3
	> 250%	> 10	> 0.5	> 2	> 0.5	> 0.2

Qualitative criteria

In order for a support decision to be issued in the Opolskie Voivodeship a minimum of 5 points must be scored.
The maximum number of points = 10.

Industrial project* / Investment project in the sector of modern business services

Sustainable economic development (5 points)

- Investing in projects that support industries consistent with the country's current development policy, namely the industries in which Poland can gain a competitive advantage;
- Achieving an adequate level of sales outside Poland;
- Being a member of the Key National Cluster*;
- Running R&D activities;
- Setting up a modern business services centre whose operations extend beyond the territory of Poland;**
- Having the micro-enterprise or SME status.

Sustainable social development (5 points)

- Creating high-paying jobs and offering stable employment;
- Conducting an economic activity that has a low negative impact on the environment;
- Locating an investment project in a city that is losing its social and economic functions or an adjacent commune, or in a district where the unemployment rate is at least 160% of the average unemployment rate in the country (excluding cities which are the seat of a province governor or province assembly);
- Supporting the acquisition of education and professional qualifications and co-operation with sectoral vocational schools;
- Taking actions designed to provide the employee with care.

Food sector in Opolskie Voivodeship

The food-producing industry has a rich tradition in the region. There are many manufacturers of dairy products, meat, cold cuts and sausages, fruit and vegetables, baker's wares and confectionery. The ecologically clean land provides favourable conditions for food crop growing and livestock farming.

The capital structure of the industry is diversified. Here in the Opolskie Region, there are not only companies belonging to international groups, including the largest global concerns, such as Danone, Froneri or Mondelez, but also domestically owned businesses (family-owned butcher's shops, bakeries, or confectionery producers, etc.) A significant number of companies are focused on manufacturing products for export, taking advantage of their proximity to Western European markets.

Among the companies operating in the region, one may find both those that develop own brand production and those that supply products under the private label of retail chains.

Companies trading in the food industry may rely on the assistance of business environment institutions which are based in the Opolskie Region. These include: the Opole Chamber of Commerce, Opole Business Centre Club, the Chamber of Crafts in Opole, the "Silesia" Chamber of Commerce, the Science and Technology Park in Opole, the Silesian Development Foundation, Kędzierzyn-Koźle Industrial Park, the Regional Chamber of Commerce in Nysa, the Metalchem Industrial Park Association, the "Promotion of Entrepreneurship" Association.

The food sector in the Opolskie Region can make use of the very developed road and rail infrastructure, the wide availability of qualified personnel, rich resources, as well as suitable geographical location at the very centre of Europe, which makes the logistical chain simpler and reduces the cost of transporting goods to customers.

Examples of companies from the food industry

Opole: Animex Foods, Merzdorf Fine Food, Nutricia, Sopelek, Zagroda Opolska, What's Cooking Polska, ZOTT

Healthy food

A&B Sp. z o.o. sp. k.

For 13 years, the company has been inviting customers with great passion into a world where health, naturalness and taste form one whole. Everything was started 13 years ago by two good friends, Arek and Łukasz. Their shared passion for a healthy lifestyle and healthful products inspired them to create Smooth The Fruit. The company's bars are now located in 8 Polish cities. They serve, among other things, healthful juices, smoothie and fruit bowls to customers. Looking at today's fast-paced life, Smooth the Fruit desires to provide easier access to wholesome and nutritious products. This is when the fitME brand was created. Preparing meals that contain vitamins, minerals and superfood has never been simpler.

Products

Healthy food, the Smooth the Fruit and fitME brands.

Diet supplements

SFD S.A.

SFD S.A. is a company which commenced its activities in 2000, being committed to its mission statement of supporting athletes and healthy lifestyle enthusiasts. It specialises in the sale of diet supplements and healthy food, providing its customers with products that help them achieve their health-related and sports objectives. SFD is proud to run the biggest online specialist shop in Poland. The product range on the offer includes more than 3,000 products from more than 80 manufacturers from all over the world, which ensures that every customer will find something for them. The company sends more than 100,000 shipments each month, including both wholesale and retail deliveries, and is committed to make sure that each order is received quickly and smoothly. In addition, SFD manages the following websites: sfd.pl, potreningu.pl i kulturystyka.pl, on which the company shares knowledge, gives advice and inspirations relating to a healthy lifestyle and workouts. SFD S.A. is recognised also on a wider market, being a company listed on the NewConnect exchange. This proves that the company's market position is growing and that more and more customers and partners have confidence in its business. While being committed to the development and provision of high-quality products, SFD S.A. continues its mission of helping people strive to live healthier and more active lifestyles.

Confectionery

SPÓŁDZIELNIA PRACY CUKRY NYSKIE

The company can already boast a tradition of 75-years. Some of its products that have already gained widespread popularity include “Regionalne” biscuits and delicious “Chrupy” wafers. The company is now focused on developing the “Deserro” line, which comprises well-known cream sandwiches, milk chocolate biscuits and biscuits with filling. Cukry Nyskie also produces Fit&Free sugar-free diabetic biscuits. The cooperative actively operates on the Polish and international markets. It also manufactures products under customers' private labels.
